## Michael Twitty A/V Preferences

### Room A/V Setup

Michael does not use a PowerPoint deck in his talks.

Michael prefers a podium with a traditional handheld mic.

If he's doing a moderated discussion, a lavalier mic is best.

Michael is a plus size man. Please make sure that comfortable and sturdy seating is made available (for the stage or otherwise, including restaurants/food gatherings). He occasionally uses a cane, so be mindful of accessibility.

### Stage set up:

Podium for talks with stool next to it. Please put a glass of ice with a pitcher of BOTTLED still water on the stool.

His seating should be comfortable, and please be mindful that Michael is a plus-size man so a sturdy chair that does not have narrow arm rests is best. Please make sure the chair is not too low to the ground due to a mobility issue he has from time to time (so he isn't deep squatting to sit.)

### Green Room Preferences:

**Allergens:** kiwi, tree nuts, or arugula.

**Preferences:** bottled water, Earl grey or hibiscus tea, light snacks including fruit, cheese and crackers.

## Other Considerations:

Michael is Jewish and tends not to travel or work from Friday night to Saturday night. Exceptions may be made for Jewish events.

**\*The following question is off limits: "How are you Jewish/When did you become Jewish?"**
